NOTICE OF DATA BREACH

Dear Mr. xxxx:

The NRA values the privacy of your information, which is why, as a precautionary measure, we are writing to let you know about a data security incident that involves your personal information. Although we are unaware of any actual misuse of your information, we are providing notice to you about the incident and about tools you can use to protect yourself against possible identity theft or fraud.

The NRA discovered a cyberattack upon its computer system in late October 2021. This month, the NRA learned that some of the files compromised included data the NRA has on file for you. The data accessed included your first and last name, middle initial, date of birth, driver's license number, and banking account information. To the best of our knowledge, the data accessed did not include any social security number, address, medical, or any other personal information about you.

The NRA deeply regrets that this incident occurred. The NRA is conducting a thorough review of the potentially affected records and computer system and will notify you if there are any significant developments. The NRA has implemented additional measures to enhance our security program.

The NRA is also working closely with outside security consultants to ensure the incident is contained and thoroughly addressed.

In addition, as a precautionary measure the NRA has arranged for NortonLifeLock to provide 1 year of complimentary LifeLock Defender™ identity theft protection for you. Instructions on enrolling in this program and the program's benefits are attached at the end of this letter. Please note that you must respond by January 31, 2022 in order to enroll in the program.

We also recommend that you remain vigilant by reviewing your account statements and credit reports closely. If you detect any suspicious activity on an account, you should promptly notify the financial institution or company with which the account is maintained. You should also promptly report any fraudulent activity or any suspected incidence of identity theft to the proper law enforcement authorities, the Montana Attorney General, and/or the Federal Trade Commission. For more information on identify theft, we suggest that you visit the website of the Montana Attorney General at <https://dojmt.gov/consumer/identity-theft/>. To report a possible identity theft to the FTC, go to <https://www.identitytheft.gov> or call 1-877-ID-THEFT (877-438-4338). Complaints filed with the FTC will be added to the FTC's Identity Theft Data Clearinghouse, which is a database made available to law enforcement agencies.

You may obtain a free copy of your credit report from each of the three major credit reporting agencies once every 12 months by visiting <https://www.annualcreditreport.com>, calling toll-free 877-

322-8228, or by completing an Annual Credit Report Request Form and mailing it to Annual Credit Report Request Service, P.O. Box 105281, Atlanta, Georgia 30348. You can print a copy of the request form at <https://www.annualcreditreport.com/manual/RequestForm.action>. Or you may elect to contact one of the three national credit reporting agencies. Contact information for the three national credit reporting agencies for the purpose of requesting a copy of your credit report or for general inquiries is provided below:

Equifax
(800) 685-1111
www.equifax.com

Experian
(888) 397-3742
www.experian.com

TransUnion
(800) 888-4213
www.transunion.com

You may also want to consider placing a fraud alert on your credit report. An initial fraud alert is free and will stay on your credit file for at least one year. The alert informs creditors or possible fraudulent activity within your report and requests that the creditor contact you prior to establishing any accounts in your name. To place a fraud alert on your credit report, contact any of the three credit reporting agencies identified above. The credit bureau you contact must tell the other two bureaus to place a fraud alert on your credit report.

You may also have the right to put a security freeze on your credit file. This will prevent new credit from being opened in your name without the use of a PIN number that is issued to you when you initiate the freeze. A security freeze is designed to prevent potential creditors from accessing your credit report without your consent. As a result, using a security freeze may interfere with or delay your ability to obtain credit. You must place a security freeze on your credit file with each credit reporting agency separately.

For further information and assistance, please contact the NRA's representative at (800) 550-4440, Monday through Friday, 9:00am to 5:00pm ET.

Sincerely,

Linda Crouch
Executive Director of Human Resources

The NRA has retained **NortonLifeLock** to provide 1 year of complimentary **LifeLock Defender™** identity theft protection.

To activate your membership online and get protection at no cost to you:
